#3, I. Chavchavadze Avenue, Tbilisi 0179, Georgia

In the frame of the survey the water quality has been defined at the following post along the River Kura: Khertvisi, Borjomi, Zahesi, Vakhushti Bridge (Tbilisi), Gachiani, Rustavi, and the some tributaries of Tbilisi: Gldaniskhevi, Dighmitskali, Vere, Lochini, using their hydrochemical features. No less than 6-7 indicators have been used, according to which the water quality was determined at the above mentioned posts on the R. Kura and its small tributaries.
